January 8, 2016

Dear Exhibitor:

The Institute for Sustainable Energy and the Environment (ISEE) at Texas A&M University-Kingsville (TAMUK) and the Lower Rio Grande Valley TPDES Storm Water Task Force are pleased to announce its 18th annual **Water Quality Management and Planning Conference** to be held May 17-21, 2016, at the La Isla Grand Resort, in South Padre Island, TX.

We expect 200 – 250 participants at this five (5) day event. The conference will begin on May 17 with the offering of an 8-hour GIS Course (topic pending). The technical sessions will be held from May 18-21. A fishing charter event will be held on May 21. Participants will primarily consist of water quality professionals, stormwater runoff industry stakeholders and professionals, and state-wide Phase II TPDES municipalities. The exhibition of products and services is an integral part of the conference, providing attendees access to sources of relevant equipment, products, and innovative technology. Ample opportunities for attendees to view exhibits are provided during registration, coffee breaks, lunches, and dinner.

The vendor exhibit cost per table is \$900. This fee includes a 6' skirted table, two chairs, power strip (if requested in submission form) and one complimentary Conference Meal Ticket (for one person, for all meals during conference). Exhibitor personnel will also receive complimentary registration for entrance to the exhibitor area only, and they may register at the conference rate.

Benefits of exhibiting include:

1. Reach a wide audience comprised of industrial representatives, consulting groups, regulatory folks, environmental organizations, academia and the general public.
2. Increase networking potential in a growing South Texas market.
3. A comprehensive database of conference attendees will be made available to exhibitors.

Don't delay! The number of tabletop exhibits is limited. Space will be filled on a first-come, first-served basis. To reserve your space, please complete the attached application and return with your full payment.

This conference will provide you with access to numerous local government officials, international, federal and state regulators, local environmental industries, and academia researchers. Topics of interest will range from the TPDES stormwater program, TPDES MS4 compliance, innovative best management practices (BMPs), municipal stormwater management programs, non-point source pollution, urban storm water management, smart growth, low impact development, water reuse, and water recycling. If you have questions, please contact Denise Hornsby at (361) 593-3046, or via email at kudh2003@tamuk.edu or Javier Guerrero at (956) 929-7189 or at kujg2004@tamuk.edu.

Sincerely,

A handwritten signature in black ink, appearing to read "Kim Jones".

Kim Jones, P.E., Ph.D.
Director
