October 6, 2015

Dear Exhibitor:

The Institute for Sustainable Energy and the Environment (ISEE) at Texas A&M University-Kingsville (TAMUK), the Sports Complex Environmental Council and the Lower Rio Grande Valley TPDES Storm Water Task Force are pleased to announce its 1st annual **Municipal Park Stormwater Management using Low Impact Development and Green Infrastructure Mini-Conference** to be held November 12-13, 2015, at the Weslaco Economic Development Center, Weslaco, TX.

We expect 100 – 120 participants at this two (2) day event. The conference will begin on November 12 with the offering of an 8-hour TFMA CFM Certification Course. The technical sessions will be held on November 13. Participants will primarily consist of water quality professionals, stormwater runoff industry stakeholders and professionals, and municipal staff. The exhibition of products and services is an integral part of the conference, providing attendees access to sources of relevant equipment, products, and innovative technology. Ample opportunities for attendees to view exhibits are provided during registration, coffee breaks, and lunch.

The vendor exhibit cost per table is \$395. This fee includes a 6' skirted table, two chairs, power strip (if requested in submission form) and one complimentary Conference Meal Ticket (for one person). Exhibitor personnel will also receive complimentary registration for entrance to the exhibitor area and technical sessions.

Benefits of exhibiting include:

1. Reach a wide audience comprised of industrial representatives, consulting groups, regulatory folks, environmental organizations, academia and the general public.
2. Increase networking potential in a growing South Texas market.
3. A comprehensive database of conference attendees will be made available to exhibitors.

Don't delay! The number of tabletop exhibits is limited. Space will be filled on a first-come, first-served basis. To reserve your space, please complete the attached application and return with your full payment.

This conference will provide you with access to numerous local government officials, international, federal and state regulators, local environmental industries, and academia researchers. Topics of interest will range from municipal park stormwater management, TPDES MS4 compliance, innovative best management practices (BMPs), non-point source pollution, urban storm water management, smart growth, low impact development, water reuse, water recycling, and proprietary BMP strategies. If you have questions, please contact Denise Hornsby at (361) 593-3046, or via email at kudh2003@tamuk.edu or Javier Guerrero at (956) 929-7189 or at kujg2004@tamuk.edu.

Sincerely,

A handwritten signature in black ink, appearing to read "Kim Jones", is written over a horizontal line.

Kim Jones, P.E., Ph.D.
