

February 1, 2018

Greetings:

On behalf of the 20<sup>th</sup> Annual Water Quality Management and Planning Conference Planning Committee, comprised of local municipal, academia and water professional stakeholders, in partnership with The University of Texas Rio Grande Valley (UTRGV) requests your support to provide the region with a stellar event that will disseminate innovative, state of the art and essential information to our local communities, researchers, students, and leaders. The 2018 Conference will be held May 14-19, 2018, at the Schlitterbahn Resort, in South Padre Island, TX. The most knowledgeable topic presenters and keynote speakers, as well as local, state and federal government leaders in the industry participate in this event to explore topics in stormwater management, innovative green infrastructure techniques, local government programs, and sustainable water quality management.

The conference will host 4 full days of technical sessions and poster sessions on cutting edge issues related to the water industry and opportunities for networking and socializing with colleagues, industry professionals and numerous local government officials.

This exceptional event will be a wonderful opportunity for your organization to have some visibility and representation in front of a wide audience who could benefit and value from your participation at this conference and public recognition. We invite you to be a partner with us in this event. The options designed to assist you in finding the right level for your budget and your time are provided.

**UTRGV will establish a student scholarship program, an endeavor that will motivate local students to pursue careers in the water industry. Your gift is tax deductible to the extent allowed by law.** Please contact me at [javier.guerrero@utrgv.edu](mailto:javier.guerrero@utrgv.edu) or Augusto Sanchez Gonzalez at [augosto.sanchezgonzalez@utrgv.edu](mailto:augosto.sanchezgonzalez@utrgv.edu) with your questions.

Best Regards,

Javier Guerrero, M.S., E.I.T.  
Director of Water Studies  
LRGV TPDES Stormwater Task Force Liaison
