

**What:**

Educational program on home water conservation

**Where:**

Texas A&M AgriLife Research and Extension Center  
2401 East Bus. Highway 83, Weslaco, TX 78596

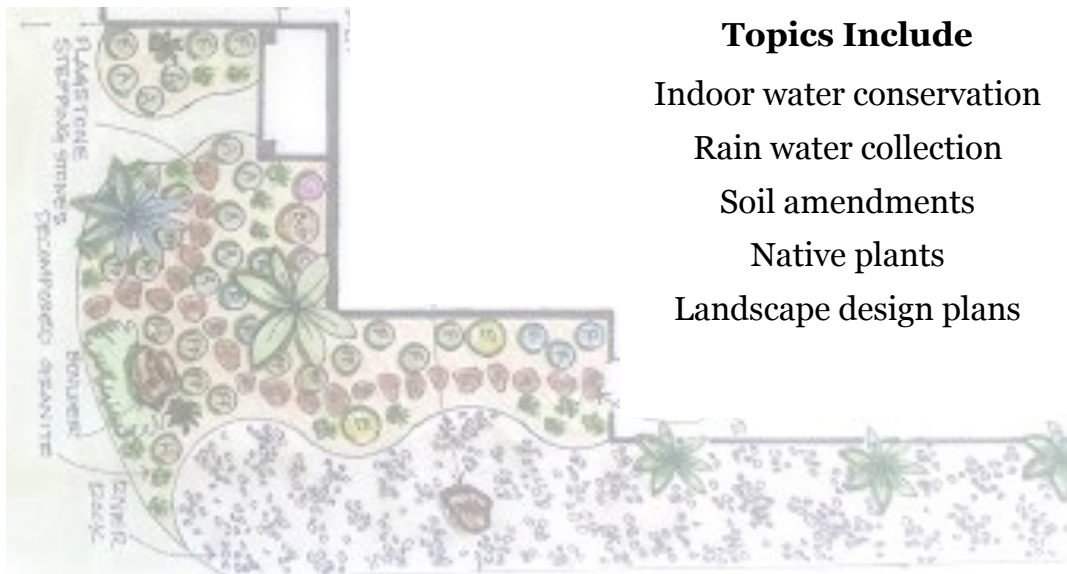

**When:**

Saturday, June 29th 9:00 am—1:00 pm

**Lunch will be provided!**

Thanks to funding from the Rio Grande Basin Initiative we are able to offer this amazing program for **FREE** to homeowners interested in conserving water with native landscapes, rainwater capture and in home water efficiency.

**Topics Include**

- Indoor water conservation
- Rain water collection
- Soil amendments
- Native plants
- Landscape design plans

**Help create your own native landscape plan with a professional designer!**

To promote continued water conservation participants will be entered to win a rainwater harvesting kit: includes barrel, 50 ft of gutter and down spout.
