

POLLUTION PREVENTION

UNIT 1 OF WESLACO

WHAT DOES POLLUTION HAVE TO DO WITH WATER?

TOWNS, CHEMICALS OR POLLUTANTS CAN FLOW INTO THE STORM DRAINS AND CAUSE WATER POLLUTION

WESLACO ENGINEERING DEPARTMENT SAYS....

BE THE SOLUTION TO RUNOFF POLLUTION

WHERE DOES RAIN WATER GO?

- RAIN WATER IS ALSO CALLED STORMWATER OR RUNOFF
- THERE ARE STORM DRAINS ALONG THE CITY STREETS. THE RUNOFF FLOWS INTO THE DRAIN AND TRAVELS TO BIGGER WATERSHEDS SUCH AS RIVERS, LAKES OR CREEKS.
- THESE STORM INLETS HELP PREVENT OUR STREETS FROM FLOODING

HAVE YOU EVER SEEN THIS BEFORE?

WHY CAN THE STREET FLOOD?

STORM INLETS GET CLOGGED UP WITH DEBRIS, LEAVES, OR TRASH

WHAT ELSE CAN CONTAMINATE OUR WATER?

- PET WASTE
- GRASS CLIPPINGS
- PLASTIC TRASH
