April 8, 2019

Greetings:

On behalf of the 21<sup>st</sup> Annual Water Quality Management and Planning Conference Planning Committee, comprised of local municipal, academia and water professional stakeholders, in partnership with the Research, Applied Technology, Education and Services-Rio Grande Valley (RATES/RGV) and the Lower Rio Grande TPDES Stormwater Task Force, we request your support in providing the region with a stellar event that will disseminate innovative, state of the art and essential information to our local communities, researchers, students, and leaders. The 2019 Conference will be held May 20-25, 2019, at the Pearl Hotel and Resort, in South Padre Island, TX. The conference will host 4 full days of technical and poster sessions on cutting edge issues related to the water industry and opportunities for networking and socializing with colleagues, industry professionals and numerous local government officials. **The exhibition of products and services is an integral part of the conference, providing attendees access to sources of relevant equipment, products, and innovative technology.** Ample opportunities for attendees to view exhibits are provided during registration, coffee breaks, lunches, and dinner.

The vendor exhibit cost per table is \$900. This fee includes a 6' skirted table, two chairs, power strip (if requested in submission form) and one complimentary Conference Meal Ticket (for one person, for all meals during conference). Exhibitor personnel will also receive complimentary registration for entrance to the exhibitor area only, and they may register additional staff at the conference discounted rate. Benefits of exhibiting include:

1. Reach a wide audience comprised of industrial representatives, consulting groups, regulatory folks, environmental organizations, academia and the general public.
2. Increase networking potential in a growing South Texas market.
3. A comprehensive database of conference attendees will be made available to exhibitors.

Don't delay! The number of tabletop exhibits is limited. Space will be filled on a first-come, first-served basis. To reserve your space, please complete the attached application and return with your full payment. This conference will provide you with access to numerous local government officials, international, federal and state regulators, local environmental industries, and academia researchers. Topics of interest will range from the TPDES stormwater program, TPDES MS4 compliance, innovative best management practices (BMPs), municipal stormwater management programs, non-point source pollution, urban storm water management, smart growth, low impact development, water reuse, and water recycling. Please contact [conference@ratesrgv.org](mailto:conference@ratesrgv.org) with any questions you may have regarding the conference.

Best Regards,

Jose Hinojosa, REM  
Chairperson  
LRGV TPDES Stormwater Task Force
